

DORO LUNA[®] Retractor System

DORO LUNA[®]

We are happy to announce the product launch of the **DORO LUNA[®] Retractor System** featuring the new **DORO COBRA[™] Flexible Rotary Arms** – a Retractor System that offers remarkable flexibility:

- Quick and easy set-up.
- Remarkable flexibility. Can be angled in any desired direction.
- **DORO LUNA[®] Curve** can be positioned parallel to the floor independent of skull clamp position.
- Stainless steel yet light-weight.
- Featuring the new **DORO COBRA[™] Flexible Rotary Arms** for precision positioning. Easy and smooth movement. Stable after repositioning under tension.

DORO COBRA™ Flexible Rotary Arms

We are happy to announce the product launch of the **DORO COBRA™ Flexible Rotary Arms**. These will offer:

- Smooth and very precise movements.
- Stable after repositioning under tension.
- „Clicks“ on **DORO LUNA® Curve**. Easy to use and move to the desired direction.
- Provides 360° body rotation while mounted for extra flexibility in positioning.
- Thumb lock - no tool necessary.
- Minimized obstruction in the surgical field.
